

Emergency Lighting Driver for LED Lighting

Product No. : EM9803C (LED)

Dimensions : LxWxH(mm) = 130x65x35

Input Voltage : AC110V ~~~ AC220V

Charging Current : 0.6A

Charging Period : 6V/4ah—8hrs, 6V/10ah—18hrs

Apply to LED lighting from 1W~23W + Original driver 110V~220V

Contribute type for electric wires : A type, B type, C type.

Remain function when electric power cut:

a. When apply to 6V/4ah battery:

LED lighting power consumption	Period
LED3W	335 Min.
LED5W	219 Min.
LED6W	112 Min.
LED10W	100 Min.
LED18W	55 Min.
LED22W	40 Min.

b. When apply to 6V/10ah battery:

LED3W	1256 Min.
LED5W	821 Min.
LED6W	420 Min.
LED10W	225 Min.
LED18W	206 Min.
LED22W	150 Min.

Note: 1. Different lighting power consumption has different working period when electric power cut.

2. 6V/10AH battery working period were 3.75 times compare to 6V/4ah battery.

Made in Taiwan
